

Dear music lovers,

We didn't know in 2002 that the adventure of the Montreal Recorder Festival would still be going strong! It is with great pleasure that we invite you to the 8th Montreal Recorder Festival. A first-class event that should not be missed!

We are also very pleased to present you with the third **Montreal International Recorder Competition**. In 2005 and 2007, the young talent showcased was impressive. This year

come listen again to talented young musicians who have promising careers ahead of them.

Year after year, the Montreal Recorder Festival explores the riches of our chosen instrument and shows you its capabilities of often unimagined diversity. This time we will again present concerts of various musical styles, workshops of all kinds, and a master class. There will be something for everyone and we hope you will participate in this tour of musical horizons.

We look forward to seeing you at the 2009 Montreal Recorder Festival,

Matthias Maute and Sophie Larivière
